## **Access ETF Solutions LLC Announces that it is the Benchmark for the USCF Restaurant Leaders ETF**

November 8, 2016

New York - Access ETF Solutions LLC is pleased to announce that its Restaurant Leaders INDXX Index is being tracked as the benchmark for the USCF Restaurant Leaders ETF (MENU) which began trading on the NYSE today. The index was designed by Access ETF Solutions LLC in collaboration with INDXX LLC as the third party back test provider. INDXX is responsible for maintaining the calculation, dissemination and administration of third party vendors.

### **About the Index:**

The Restaurant Leaders INDXX Index seeks to provide access to the U.S. publicly traded restaurant industry. Based upon industry research the index tilts about 70% towards Quick Service Restaurants (QSR). The index rebalances its holdings quarterly and uses proprietary quantitative screens to remove 6 relatively. The index uses 2 quantitative proprietary screens to eliminate the 6 companies that have been relative underperformers from the index each quarter. Effective August 8, 2016, the Restaurant Leaders INDXX Index was listed as a "live index", but the rules for the back test date back to a launch date of January 2, 2006.
